Richard George Burges  
6 Glass St Kalbarri

I have been extremely fortunate to have called Kalbarri home for over 40 years, my parents ran a wheat/sheep farm south of town in which I worked gaining knowledge of farming, the land and small business and that has later diversified into what is now known as Kalbarri Eggs.

I attended the Kalbarri primary school for most of my junior education and then went on to board in Perth for high school. Over the years I watched this town grow from a small fishing town into a busy tourism destination and along the way have spent decades working in both those industries. working in tourism on a charter fishing boat led me to start my own charter fishing business and that has impressed on me both the importance of working with people and how important a growing tourism industry is to our town.

More recently I have built a wholesale plant nursery which employs a growing number of local people that has been operating for 7 years. In the past I have served on various committees such as the visitor centre and the Kalbarri Development Association including one term as president.

I have also been involved in sea search and rescue , the sport and rec and the surf club doing volunteer work along with other local organisations.
