Candidate statement – Annie Boyd

I came to Kalbarri in 2011, intending to stay only a few months. Ten years on, I am happy to call the town home.

Although I graduated as a civil engineer, I have made a career as a writer and software developer. That has worked out well. I work remotely most of the time.

I have a particular interest in landscape architecture and hope that Kalbarri will be developed thoughtfully, in keeping with the natural environment. I will be guided by the different reasons people have for coming here, whether for a visit or to live. Communication with community groups will be a priority.

In my spare time I surf and skate. Many of you will know me only by sight, as the older-than-average rollerskater who cruises the foreshore.
